MANAGEMENT'S DISCUSSION AND ANALYSIS  
OF RESULTS OF OPERATIONS  
AND FINANCIAL CONDITION

**FOR THE THREE MONTHS ENDED MARCH 31, 2014**

**MAY 21, 2014**

## **MANAGEMENT’S DISCUSSION AND ANALYSIS**

The following Management’s Discussion and Analysis (“MD&A”) of the financial results of Terra Firma Capital Corporation (the “Company”) dated May 21, 2014 for the three months ended March 31, 2014 should be read in conjunction with the Company’s unaudited condensed consolidated interim financial statements and accompanying notes for the same period as well as the audited consolidated financial statements for the year ended December 31, 2013. These documents are available on SEDAR at [WWW.SEDAR.COM](http://WWW.SEDAR.COM)

## **CAUTION REGARDING FORWARD-LOOKING STATEMENTS**

Certain statements contained in this MD&A constitute forward-looking information within the meaning of Canadian securities laws. Forward-looking statements are provided for the purposes of assisting the reader in understanding the Company’s financial performance, financial position and cash flows as at and for the periods ended on certain dates and to present information about management’s current expectations and plans relating to the future and readers are cautioned that such statements may not be appropriate for other purposes. Forward-looking information may relate to future results, performance, achievements, events, prospects or opportunities for the Company or the real estate industry and may include statements regarding the financial position, business strategy, financial results, real estate values, interest rates, loan to cost, plans and objectives of or involving the Company. In some cases, forward-looking information can be identified by such terms such as “may”, “might”, “will”, “could”, “should”, “would”, “occur”, “expect”, “plan”, “anticipate”, “believe”, “intend”, “seek”, “aim”, “estimate”, “target”, “project”, “predict”, “forecast”, “potential”, “continue”, “likely”, “schedule”, or the negative thereof or other similar expressions concerning matters that are not historical facts.

Forward-looking statements necessarily involve known and unknown risks and uncertainties that may be general or specific and which give rise to the possibility that expectations, forecasts, predictions, projections or conclusions will not prove to be accurate, that assumptions may not be correct and that objectives, strategic goals and priorities will not be achieved. A variety of factors, many of which are beyond the Company’s control, affect the lending operations, performance and results of the Company and its business, and could cause actual results to differ materially from current expectations of estimated or anticipated events or results. These factors include, but are not limited to, the risks discussed in the Company’s materials filed with Canadian securities regulatory authorities from time to time, including the risks discussed herein at “Risks and Uncertainties”. The reader is cautioned to consider these and other factors, uncertainties and potential events carefully and not to put undue reliance on forward-looking statements as there can be no assurance that actual results will be consistent with such forward-looking statements.

Information contained in forward-looking statements is based upon certain material assumptions that were applied in drawing a conclusion or making a forecast or projection, including management’s perceptions of historical trends, current conditions and expected future developments, as well as other considerations that are believed to be appropriate in the circumstances, including the following: the Canadian economy will remain stable over the next 12 months; inflation will remain relatively low; interest rates will remain stable; conditions within the real estate industry will be consistent with the current climate; and the referenced above, collectively, will not have a material impact on the Company. While management considers these assumptions to be reasonable based on currently available information, they may prove to be incorrect.

The forward-looking statements made in this MD&A relate only to events or information as of the date on which the statements are made in this MD&A. Except as specifically required by applicable Canadian law, the Company undertakes no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise, after the date on which the statements are made or to reflect the occurrence of unanticipated events.

## **BASIS OF PRESENTATION**

The Company’s unaudited condensed consolidated interim financial statements for the three months ended March 31, 2014 have been prepared in accordance with International Financial Reporting Standards (“IFRS”). The Company’s presentation currency is the Canadian dollar.

## **BUSINESS OVERVIEW AND STRATEGY**

The Company was incorporated under the *Business Corporations Act* (Ontario) on July 26, 2007. The common shares of the Company (“Shares”) trade on the TSX Venture Exchange (the “Exchange”) under the symbol TII. The registered office of the Company is: 5000 Yonge Street, Suite 1502, Toronto, Ontario, M2N 7E9. The principal business of the Company is the arrangement of and participation in real property financings secured by investment properties and commercial and residential real estate developments, throughout Canada.

These financings generally take the form of:

- (i) Land loans registered in first position at the earlier stages of real property development and either subsequently postponing to construction financing or being discharged upon the funding of construction financing, as the project progresses through the development cycle,
- (ii) Mezzanine / equity type financings on real property developments that have either progressed to the construction phase or are near to that juncture, or
- (iii) Mezzanine financings on income property.

These financings generally represent loan to cost ratios of not more than 85% and loan to end value ratios of not more than 80%, including all prior encumbrances at the time of underwriting of each loan. In some cases the loan to value ratio could increase to 85%.

The Company’s primary investment objective is to provide attractive risk-adjusted returns to shareholders over the long-term, through capital appreciation. Management believes that there is currently a significant market opportunity to identify and fund such loans as a result of financing needs not being met by traditional institutional lenders. Through management’s relationships with mortgage lenders, brokers, local sponsors and other market participants, the Company is able to identify real estate opportunities where it can provide financing solutions to borrowers while achieving equity type returns at reduced risk levels as compared to straight equity ownership. The Company differentiates itself by serving these niches with an experienced financing team which generally can provide more flexible terms and creative structure. Management believes its experience with real estate investments and industry contacts will provide the Company with a consistent flow of quality investment opportunities.

## **INVESTMENTS**

The following table presents details of the Investment Portfolio as at March 31, 2014 and December 31, 2013:

	March 31, 2014			December 31, 2013		
	Weighted Average Effective Interest Rate	Amount	% of Investments	Weighted Average Effective Interest Rate	Amount	% of Investments
Residential housing developments	20.5%	\$ 39,180,929	69.6%	19.9%	\$ 40,121,019	72.6%
Commercial retail development	17.0%	600,000	1.1%	17.0%	600,000	1.1%
Residential income properties	16.4%	3,293,521	5.8%	17.7%	1,794,084	3.2%
Student housing	14.6%	13,263,600	23.5%	14.6%	12,763,200	23.1%
Investment Portfolio	18.8%	\$ 56,338,050	100.0%	18.6%	\$ 55,278,303	100.0%

As at March 31, 2014 and December 31, 2013, the principal balance of the Investment Portfolio was \$56,338,050 and \$55,278,303, respectively. The Investment Portfolio continued to grow through the funding of the new loans and mortgages payable during the three months ended March 31, 2014, an increase of \$1,059,747 or 2% from the balance at December 31, 2013. This increase resulted from the net effect of funding six loan investments totaling \$9,442,601, capitalized interest of \$622,576, the repayment of four loans totaling \$9,708,600, advances against existing loan commitments of \$203,333, exchange gain on U.S dollar denominated loan of \$500,400 and contractual principal repayments of \$563.

The following table summarizes the change in the Investment Portfolio for the three months ended March 31, 2014:

	Amount
Balance of Investment Portfolio, beginning of period	\$ 55,278,303
Investment Portfolio activity during the period	
Funding of new loan investments	9,442,601
Exchange gain	500,400
Advances against existing loan	203,333
Repayments of loans	(9,708,600)
Interest capitalized	622,576
Principal repayment of loans	(563)
Balance of Investment Portfolio, end of period	\$ 56,338,050

The weighted average effective interest rate of the Investment Portfolio at March 31, 2014 and December 31, 2013 was 18.8% and 18.6%, respectively. The weighted average effective interest rates of the loans and mortgage investments of residential housing developments at March 31, 2014 and December 31, 2013 were 20.5% and 19.9%, respectively and the weighted average effective interest rates of the residential income properties at March 31, 2014 and December 31, 2013 were 16.4% and 17.7%, respectively. The weighted average effective interest rates of the loans and mortgage investments of commercial retail development and income producing student housing portfolio at March 31, 2014 and December 31, 2013 were 17.0% and 14.6%, respectively.

The weighted average term to maturity at March 31, 2014 and December 31, 2014 was 1.09 years and 1.21 years, respectively. The relatively short term to maturity of the Investment Portfolio allows for reinvestment of the portfolio in response to changing market conditions.

Principal repayments and the Investment Portfolio maturing in the next five years are as follows:

	Scheduled principal payments	Investments maturing during the year	Total loan and mortgage investments
remainder of year	1,801	16,086,935	16,088,736
2015	1,750	35,380,465	35,382,215
2016	-	4,867,099	4,867,099
	\$ 3,551	\$ 56,334,499	\$ 56,338,050

Certain of the loans have early repayment rights which, if exercised, would result in repayments in advance of their contractual maturity dates.

The Investment Portfolio is secured by mortgages registered on title and/or other forms of security including but not limited general security agreements, postponement of specific claims and joint and several guarantees.

Pursuant to certain lending agreements, the Company is committed to fund additional loan advances. The unfunded loan commitments under the existing loan and mortgage investments at March 31, 2014 amounted to \$826,475, including \$163,125 of capitalization of future interest relating to the existing loan and mortgage investments compared to \$1,529,552 of commitments, including \$866,202 of capitalization of future interest relating to the existing loan and mortgage investments at December 31, 2013.

The investments comprising the Investment Portfolio are classified as financial assets and categorized as loans and receivables. Loans and receivables are initially recognized at the amount expected to be received less, when material, a discount to reduce the loans and receivables to fair value. Subsequently, loans and receivables are measured at amortized cost using the effective interest rate method less any provision for impairment. The Loan Portfolio is reviewed on a quarterly basis to determine any such impairment. As at March 31, 2014 and December 31, 2013, all contractual principal and interest payments have been made on a portfolio wide basis and management believes there was no material change in the condition of the underlying properties/projects or general economic conditions that would warrant the recognition of any impairment.

## TERRA FIRMA CAPITAL CORPORATION – MD&A

The Company determined the fair value of investment property in the Montreal Street JV using the direct capitalization method. Under the direct capitalization method, fair values were determined by capitalizing the estimated future net operating income at the market capitalization rates. The capitalization rate used in the valuation of the property was 7.0%. At March 31, 2014, the carrying value of this investment approximates its fair value.

As at December 31, 2013, a 25-basis-point decrease in the overall capitalization rate would increase the Company's proportionate share of value of investment property by \$71,159. A 25-basis-point increase in the overall capitalization rate would decrease the Company's proportionate share of the value of investment property by \$66,251.

The Company determined the fair value of investment property in the Queen Street West JV using the direct comparison method. The direct comparison method involves comparing or contrasting the recent sale, listing or optioned prices of properties comparable to the subject property and adjusting for any significant differences between them. At March 31, 2014, the carrying value of this investment approximates its fair value.

As at December 31, 2013, a \$5.0 increase or decrease in the rate per square floor would increase or decrease the Company's proportionate share of the value of investment property by \$256,048, respectively

### PORTFOLIO INVESTMENT

The Company has invested, through its subsidiary Terra Firma Capital (Hill) Corporation (the "Hill") (78.95% owned), in a partnership interest in a 94 unit mid-rise condominium development project located in Toronto, Ontario. The Company does not have significant influence in the partnership and is accounting for its investment as a financial asset at fair value through profit and loss. The carrying value of the investment is \$954,073 (December 31, 2013 – \$954,073) and the investment of the other partner in the Hill of \$200,000 is included in non-controlling interest. At March 31, 2014 and December 31, 2013, the fair values were determined using direct comparison method. The carrying value of this investment approximates its fair value.

The Company has granted 100,000 options to consultants of the Company. (See "Shareholders Equity - Share Based Compensation").

### LIQUIDITY AND CAPITAL RESOURCES

#### LIQUIDITY

The return on the Investment Portfolio is an important component of the Company's financial results. The Company's investment strategy focuses on the total return of assets needed to support the underlying liabilities, asset-liability management and achieving an appropriate return on capital. The Company's continued focus is to manage risks and returns and to position its Investment Portfolio to take advantage of market opportunities while attempting to mitigate adverse effects. Material changes in market conditions may adversely affect the Company's net cash flow from operating activities and liquidity. A more detailed discussion of these risks is found under the "Risks and Uncertainties" section.

The Company expects to be able to meet all of its obligations as they become due and to provide for the future growth of the business. The Company has a number of financing sources to fulfill its commitments including (i) cash flow from its operating activities, (ii) issuance of loans and mortgages payable, (iii) issuance of shares and debentures, or any combination thereof.

### **LOANS AND MORTGAGES PAYABLE**

The Company leverages its Investment Portfolio through the issuance of the loans and mortgages payable (the "Loan Portfolio") and the Debentures. These financial liabilities are designed to increase the Company's overall returns through the issuance of specific debt instruments bearing lower effective interest rates than those being realized on the Investment Portfolio itself, while lowering the Company's overall risk profile.

Loans Payable is sourced through the following initiatives:

- (i) The syndication of certain loan and mortgage investments to private investors each participating in a prescribed manner on an investment by investment basis. In these cases, the investors assume the same risks associated with the specific investment transaction as the Company.
- (ii) Conventional construction or permanent financing secured by the project or investment property. In these cases, the Company is generally in second position to the conventional construction lenders.

At March 31, 2014 the weighted average effective interest rate of Loans Portfolio was 11.6%, consisting of the syndication of loans pertaining to 14 residential housing developments having weighted average effective interest rate of 12.4%, two residential income properties, having weighted average effective interest rate of 10.9%, one commercial retail development, having weighted average effective interest rate of 10.5% and one equity loan secured by a limited partnership interest in an entity that has ownership interest in a portfolio of 10 student housing buildings with 5,352 student beds in USA, having weighted average effective interest rate of 12.1% and mortgages on Montreal Street JV and Queen Street JV of 4.2% and 4.8%, respectively.

## TERRA FIRMA CAPITAL CORPORATION – MD&A

At December 31, 2013 the weighted average effective interest rate of Loans Portfolio was 12.0%, consisting of the syndication of loans pertaining to thirteen residential housing developments having weighted average effective interest rate of 12.9%, two residential income properties, having weighted average effective interest rate of 10.9%, one commercial retail development, having weighted average effective interest rate of 10.5% and one equity loan secured by a limited partnership interest in an entity that has ownership interest in a portfolio of 10 student housing buildings with 5,352 student beds in USA, having weighted average effective interest rate of 12.1% and mortgages on Montreal Street JV and Queen Street JV of 4.2% and 4.8%, respectively.

The following table presents details of the Loans Portfolio as at March 31, 2014 and December 31, 2013:

	March 31, 2014			December 31, 2013		
	Weighted Average Effective Interest Rate	Amount	% of Loans Payable	Weighted Average Effective Interest Rate	Amount	% of Loans Payable
Residential housing developments	12.4%	\$ 26,184,566	58.2%	12.9%	\$ 28,279,132	60.7%
Residential income properties	10.9%	1,346,760	3.0%	10.9%	1,347,042	2.9%
Commercial retail development	10.5%	500,000	1.1%	10.5%	500,000	1.1%
Student housing	12.1%	13,263,600	29.5%	12.1%	12,763,200	27.4%
Montreal Street JV	4.2%	1,173,316	2.6%	4.2%	1,180,547	2.5%
Queen Street West JV	4.8%	2,500,000	5.6%	4.8%	2,500,000	5.4%
	11.6%	\$ 44,968,242	100.0%	12.0%	\$ 46,569,921	100.0%

At March 31, 2014 the Company's syndication activities resulted in \$44,968,242 or 79.8% of the Loan Portfolio being syndicated by investors, yielding a net effective return of 47.3%, thereby increasing its overall return by 28.5% from its non-leveraged 18.8% return compared to \$46,569,921 or 84.2% of the Loan Portfolio being syndicated by investors, yielding a net effective return of 53.9%, thereby increasing its overall return by 35.3% from its non-leveraged 18.6% return, at December 31, 2013. Overall return may fluctuate significantly due to changes in the relative dollar amounts and the relative change in the weighted average effective interest rates within the Loan Portfolio

The following table summarizes the changes in the principal balance of Loans Portfolio for the three months ended March 31, 2014:

	Amount
Balance of Loan Portfolio, beginning of period	\$ 46,569,921
Loans and Mortgages Payable activity during the period

Repayments of loan and mortgages payable	(3,969,566)
Principal repayment of loans	(7,513)
Balance of Loan Portfolio, end of period	\$ 44,968,242

## TERRA FIRMA CAPITAL CORPORATION – MD&A

At March 31, 2014, scheduled principal repayments, and maturity amounts on the loans to be paid over each of the next five fiscal years, are as follows:

	Scheduled principal payments	Loans maturing during the year	Total loans and mortgages payable
2014 - remainder of year	23,098	6,894,566	6,917,664
2015	31,679	35,298,585	35,330,264
2016	13,224	2,707,090	2,720,314
	\$ 68,001	\$ 44,900,241	\$ 44,968,242

### CONVERTIBLE DEBENTURES

On September 27, 2011, the Company issued 10,150 unsecured subordinated debentures (the “Debentures”) at par value of \$10,150,000. The Debentures bear interest at 7.0% per annum, payable on a last business day of each calendar quarter and mature on September 27, 2014. The Debentures are convertible at the option of the holder at any time up to maturity at a conversion price of \$0.70 per common share. The Debentures are not redeemable or convertible at the option of the Company prior to maturity.

800 of the Debentures, having a face value of \$800,000, were issued to certain directors and officers of the Company.

As of the date of issuance the fair value of the liability component of the Debentures was determined to be the fair value of the Debenture as a whole. The issue costs directly attributable to the issuance of the Debentures are deducted from the liability component of the Debenture resulting in an effective interest rate of 7.35%. The Debentures, net of the equity component and issue costs, are accreted using the effective interest rate method over the term to maturity of the Debentures, such that the carrying amount will equal the total face value of the Debenture at maturity.

The following table summarizes the changes in the Debentures for the three months ended March 31, 2014 and 2013:

	Amount
Liability component of Debentures, December 31, 2012	\$ 10,093,325
Interest expensed at EIR of 7.35%	182,808
Interest paid	(175,192)
Liability component of Debentures, March 31, 2013	10,100,941
Interest expensed at EIR of 7.35%	559,441
Interest paid	(535,308)
Liability component of Debentures, December 31, 2013	10,125,074
Interest expensed at EIR of 7.35%	183,383
Interest paid	(175,192)
Liability component of Debentures, end of March 31, 2014	\$ 10,133,265

The Company is confident that it can replace or extend the terms of the maturing Debentures while maintaining the Company’s flexible capital structure to optimize the costs of capital.

**COMMITMENTS AND CONTINGENCIES**

Pursuant to certain lending agreements, the Company is committed to fund additional loan advances. The unfunded loan commitments under the existing loan and mortgage investments at March 31, 2014 was \$826,475 including \$163,125 of capitalization of future interest relating to the existing loan and mortgage investments. The unfunded loan commitments under the existing loan and mortgage investments at December 31, 2013 was \$1,529,552 including \$866,202 of capitalization of future interest relating to the existing loan and mortgage investments.

The Company is also committed to provide additional capital to joint operations in accordance with contractual agreements.

The Company has a lease commitment on its head office premises located at 5000 Yonge Street, Toronto, Ontario. The minimum rental amount is \$30,693 per annum extending to March 31, 2017. Additional maintenance and utility costs and realty taxes are payable as incurred.

The Company, from time to time, may be involved in various claims, legal and tax proceedings and complaints arising in the ordinary course of business. The Company is not aware of any pending or threatened proceedings that would have a material adverse effect on the financial condition or future results of the Company.

**SHAREHOLDERS' EQUITY**

**SHARES**

The following table summarizes the changes in Shares for the year ended December 31, 2013 and three months ended March 31, 2014.

	Shares	Amount

Transferred from contributed surplus upon exercise of options	-	8,385
Outstanding as at December 31, 2013	30,845,000	10,795,790
Outstanding, March 31, 2014	30,845,000	\$ 10,795,790

As at May 21, 2014, there were 30,845,000 Shares issued and outstanding.

**SHARE BASED COMPENSATION**

The Company has adopted Share Options Plan (the "Plan") to grant eligible directors, officers, senior management and consultants options to purchase Shares. The exercise price of each option shall be determined by the board of directors and in accordance with the Plan and the policies of the Exchange. Subject to the policies of the Exchange, the board of directors may determine the time during which options shall vest and the method of vesting, or that no vesting restriction shall exist, provided that no Option shall be exercisable after five years from the date on which it is granted.

On February 24, 2014, the Company granted share options to consultants of the Company to purchase 100,000 common shares at \$0.50 per share. 25% of the share options vested immediately upon grant, with an additional 25% vesting each 90-day period thereafter.

On April 17, 2013, the Company granted share options to Directors and Officers to purchase 245,334 common shares at \$0.30 per share. 25% of the share options vested immediately upon grant, with an additional 25% vesting each 90 day period thereafter.

## TERRA FIRMA CAPITAL CORPORATION – MD&A

The fair value of the share options granted was estimated on each of the dates of grant, using the Black-Scholes option pricing model, with the following assumptions:

	Options grant dates	
	February 24, 2014	April 17, 2013
Average expected life	5.00 years	5.00 years
Average risk-free interest rate	0.98%	1.21%
Average expected volatility	98.29%	104.00%
Average dividend yield	0.00%	0.00%

The fair value of options granted during the three months ended March 31, 2014 and the year ended December 31, 2013 were \$23,005 and \$39,208, respectively

The following is the summary of changes in the Company's share options for the three months ended March 31, 2014 and year ended December 31, 2013:

	March 31, 2014		December 31, 2013

### RELATED PARTY TRANSACTIONS AND ARRANGEMENTS

At March 31, 2014 and December 31, 2013, the Chairman of the Board of the Company, indirectly through a wholly owned subsidiary, owned approximately 20% of the issued and outstanding shares of the Company.

### LOANS AND MORTGAGES PAYABLE

Several of the Company's loan and mortgage investments are syndicated with other investors of the Company, which may include officers or directors of the Company. The Company ranks equally with other members of the syndicate as to payment of principal and interest.

At March 31, 2014, the loan and mortgage investments and Debentures syndicated by officers and directors were \$2,845,980 (December 31, 2013 - \$2,840,280). No loans or investments were issued to borrowers controlled by or related to officers or directors of the Company.

### SIGNIFICANT ACCOUNTING POLICIES AND CHANGES IN ACCOUNTING POLICIES

A summary of the significant accounting policies are described in Note 2 to the audited consolidated financial statements for the year ended December 31, 2013.

There were no changes in significant accounting policies adopted by the Company in the three months ended March 31, 2014.

### ADOPTION OF RECENT ACCOUNTING PRONOUNCEMENTS:

The following standards and amendments to existing standards have been adopted for the period beginning January 1, 2014.

IFRIC 21 - *Levies*, addresses accounting for a liability to pay a levy within the scope of IAS 37, Provisions, Contingent liabilities and Contingent Assets. A levy is an outflow of resources embodying economic benefits that is imposed by governments on entities in accordance with legislation, other than income taxes within the scope of IAS 12, Income Taxes, and fines or other penalties imposed for breaches of the legislation. The interpretations are effective for annual periods beginning on or after January 1, 2014. The adoption of this interpretation did not result in any changes to the unaudited condensed consolidated interim financial statements.

*IAS 32, Financial Instruments: Presentation* ("IAS 32") updates the application guidance in IAS 32, to clarify that the right to offset financial assets and financial liabilities must be available on the current date and cannot be contingent on a future event. The amendments to IAS 32 are effective for fiscal periods beginning on or after January 1, 2014. The adoption of these amendments did not result in any changes to the unaudited condensed consolidated interim financial statements.

**NEW STANDARDS AND INTERPRETATIONS NOT YET ADOPTED:**

There were no new standards issued during the three months period ended March 31, 2014 that are applicable to the Company in future periods. A Description of standards and interpretations that will be adopted by the Company in future periods can be found in the notes to the consolidated financial statements for the year ended December 31, 2013.

**USE OF ESTIMATES**

The preparation of the Company's consolidated financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of income and expenses during the year. Actual results may differ from these estimates.

The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant are disclosed separately. Changes to estimates and assumptions may affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of these consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could also differ from those estimates under different assumptions and conditions.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

**FINANCIAL INSTRUMENTS**

The Company, as part of its operations, carries a number of financial instruments. The Company's financial instruments consist of cash and cash equivalents, funds held in trust, interest and other receivables, loan and mortgage investments, portfolio investment, accounts payable and accrued liabilities, provision for discontinued operations, loans and mortgages payable and liability component of Debentures.

The fair value of interest and other receivables and accounts payable and accrued liabilities approximate their carrying values due to their short-term maturities.

The fair value of loans and mortgage investments, loans and mortgage payable and Debentures approximate their carrying value as they are short-term in nature. There is no quoted price in an active market for the loans and mortgage investments, loans and mortgages payable or Debentures. The Company makes the determinations of fair value based on its assessment of the current lending market for loan and mortgage investments of same of similar terms. As a result, the fair value is based on Level 3 on the fair value hierarchy.

The Company uses various methods in estimating the fair values recognized in the consolidated financial statements. The fair value hierarchy reflects the significance of inputs used in determining the fair values.

- Level 1 - quoted prices in active markets
- Level 2 - inputs other than quoted prices in active markets or valuation techniques where significant inputs are based on observable market data; and
- Level 3 - valuation technique for which significant inputs are not based on observable market data.

The fair value of the Company's investment properties, portfolio investments and non-controlling interest are determined by using Level 3 inputs at March 31, 2014 and December 31, 2013 and no amounts were transferred between fair value levels during the three months ended March 31, 2014 and year ended December 31, 2013. The key assumptions used by the Company in determining fair values of its investment properties and portfolio investment were discussed separately.

## OFF BALANCE SHEET ITEMS

As of March 31, 2014 and December 31, 2013, the Company did not have any off-balance sheet (statement of financial position) arrangements.

## RISKS AND UNCERTAINTIES

There are certain risks inherent in an investment in the securities of the Company and in the activities of the Company, including the following, which current and prospective holders of securities of the Company should carefully consider. If any of the following or other risks occurs, the Company's business, prospects, financial condition, financial performance and cash flows could be materially adversely impacted. In that case, the trading price of the securities of the Company could decline and investors could lose all or part of their investment in such securities. There is no assurance that risk management steps taken will avoid future loss due to the occurrence of the risks described below or other unforeseen risks.

### GENERAL BUSINESS RISKS

The Company is subject to general business risks and to risks inherent in the commercial and residential real estate lending, including both the making of loans secured by real estate and the development and ownership of real property. Income and gains from the Company's investments may be adversely affected by:

- i. changes in national or local economic conditions,
- ii. changes in demand for newly constructed residential units,
- iii. the inability of property owners to secure and retain tenants,
- iv. the financial inability of tenants to meet their lease obligations,
- v. changes in interest rates and in the availability, cost and terms of any mortgage or other financing,
- vi. the impact of present or future environmental legislation and compliance with environmental laws,
- vii. changes in real estate assessed values and taxes payable on such values and other operating expenses, or
- viii. civil unrest, acts of God, including earthquakes and other natural disasters and acts of terrorism or war (which may result in uninsured losses).

Any of the foregoing events could impact the ability of borrowers to timely repay (if at all) loans made by the Company, negatively impact the value or viability of a development project in which the Company has invested or negatively impact the value of portfolio properties of the Company or their ability to generate positive cash flow.

In addition, the Company may be unable to identify and complete investments that fit within its investment criteria. The failure to make a sufficient number of these investments would impair the future growth of the Company.

### CREDIT RISK

Credit risk is the risk of financial loss from the failure of a borrower, for any reason, to fully honour its financial or contractual obligations to the Company, primarily arising from the Company's loan and mortgage investment activities. Fluctuations in real estate values may increase the risk of default and may also reduce the net realizable value of the collateral property to the Company. Credit losses occur when a borrower fails to meet its obligations to the Company and the value realized on the sale of the underlying security deteriorates below the carrying amount of the exposure.

The Company is exposed to credit risk on all financial assets and its exposure is generally limited to the carrying amount on the consolidated statements of financial position.

The Company mitigates the risk of credit losses on its loan and mortgage investments by maintaining strict credit policies and conducting thorough investment due diligence, ensuring loans and mortgages have risk-adjusted loan to value, together with personal guarantees by the borrowers and parties related to the borrowers, review and approval of new loans and mortgages and continued monitoring of change in value of underlying securities.

Cash and cash equivalents are held with financial institutions that management believes are of high credit quality.

### **CURRENCY RISK**

Currency risk is the risk that the fair value or future cash flows of the Company's foreign currency denominated, cash and cash equivalents, loan and mortgage investments and loans and mortgages payable will fluctuate based on changes in foreign currency exchange rates. Approximately \$1,208,726 (December 31, 2013 – 985,907) of the Company's cash and cash equivalents and \$12,763,200 (December 31, 2013 - \$12,763,200), of the loans and mortgage investments and loans and mortgages payable at year end are denominated in United States dollars and secured primarily by charges on real estate located in United States; consequently, the Company is subject to currency fluctuations that may impact its financial position and results. The Company manages its currency risk on loan and mortgage investments by syndicating in the same currency.

A change in exchange rate of the Canadian dollar against the U.S. dollar by 5% would not have a significant impact on the net income and comprehensive income and equity for the year.

### **INTEREST RATE RISK**

Interest rate risk arises due to exposure to the effects of future changes in the prevailing level of interest rates. The Company is exposed to interest rate risk arising from fluctuations in interest rates primarily on its loan and mortgage investments, debentures payable and loans and mortgages payable.

The Company mitigates its exposure to this risk by entering into contracts having either fixed interest rates or interest rates pegged to prime for its loan and mortgage investments and loans and mortgages payable and asset liability matching. Such risk is further mitigated by the general short term nature of loan and mortgage investments.

### **LIQUIDITY RISK**

Liquidity risk is the risk the Company will not be able to meet its financial obligations as they come due. The Company's approach to managing liquidity risk is to ensure, to the extent possible, that it always has sufficient liquidity to meet its liabilities when they come due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's credit worthiness.

The Company manages liquidity risk by forecasting cash flows from operations and anticipated investing and financing activities.

### **OPERATING HISTORY**

The Company has a limited history of earnings or operations, it has not paid any dividends and it is unlikely to pay any dividends in the immediate or foreseeable future. The success of the Company depends largely on the expertise, ability, judgment, discretion, and good faith of its management and board of directors.

### **SUBORDINATED DEBT FINANCING**

Subordinated financings that are carried on by the Company would generally be considered riskier than primary financing because the Company will not have a first-ranking charge on the underlying property. When a charge on a property is in a position other than first-ranking, it is possible for the holder of a prior charge on the property to realize on the security given for the loan, in priority to and to the detriment of the Company's security interest in such property or security.

### DEVELOPMENT STRATEGY

Any development projects in which the Company invests are subject to a number of risks, including, but not limited to:

- (i) construction delays or cost overruns that may increase project costs,
- (ii) financing risks,
- (iii) the failure to meet anticipated occupancy or rent levels,
- (iv) failure to meet anticipated sale levels or prices,
- (v) failure to receive required zoning, land use and other governmental permits and authorizations and/or
- (vi) changes in applicable zoning and land use laws.

### INVESTMENTS IN JOINT OPERATIONS

In any joint operations in which the Company invests, the Company may not be in a position to exercise sole decision-making authority. Investments in joint operations may, under certain circumstances, involve risks not present when a third party is not involved, including the possibility that joint operations partners might become bankrupt or fail to fund their share of required capital contributions. Joint operations partners may have business interests or goals that are inconsistent with the Company's business interests or goals and may be in a position to take actions contrary to the Company's policies or objectives. Any disputes that may arise between the Company and its joint operations partners could result in litigation or arbitration that could increase the Company's expenses and distract its officers and/or directors from focusing their time and effort on the Company's business. In addition, the Company might in certain circumstances be liable for the actions of its joint operations partners.

### DISCLOSURE CONTROLS AND PROCEDURES AND INTERNAL CONTROLS OVER FINANCIAL REPORTING

The Company's Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO") are responsible for establishing and maintaining the Company's disclosure controls and procedures. The Company's disclosure controls and procedures are designed to provide reasonable assurance that information required to be disclosed by the Company is recorded, processed, summarized and reported within the time periods specified under Canadian securities laws, and include controls and procedures that are designed to ensure that information is accumulated and communicated to management, including the CEO and CFO, to allow timely decisions regarding required disclosure. As of the end of the period covered by this MD&A, the Company's CEO and CFO evaluated the Company's disclosure controls and procedures and, based upon that review and evaluation, concluded that those disclosure controls and procedures are effective.

The Company is not required to certify the design and evaluation of its disclosure controls and procedures. Inherent limitations on the ability of the certifying officers to design and implement, on a cost effective basis, disclosure controls and procedures for the Company may result in additional risks to the quality, reliability, transparency and timeliness of interim and annual filings and other reports provided under securities legislation.

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with IFRS. Given the small size of the Company, and, consequently, limited staff levels, certain duties within the accounting and finance department cannot be properly segregated. However, none of the segregation deficiencies is likely to result in a misstatement to the consolidated financial statements as the Company relies on certain compensating controls, including the detailed monitoring of operations and transactions by the CEO and CFO. No material changes were made in the Company's internal control over financial reporting during the three months ended March 31, 2014.

## TERRA FIRMA CAPITAL CORPORATION – MD&A

The Company is not required to certify the design and evaluation of its internal control over financial reporting and has not completed such an evaluation. Inherent limitations on the ability of the certifying officers to design and maintain, on a cost effective basis, internal control over financial reporting for the Company may result in additional risks to the quality, reliability, transparency and timeliness of interim and annual filings and other reports provided under securities legislation.

### FUTURE OUTLOOK

The following section includes certain forward looking statements, including in regards of the Company's objectives and priorities. Please refer to the section titled "Caution Regarding Forward Looking Statements" on page 1 of this MD&A.

The objective of the Company is to provide attractive returns to shareholders over the long-term, through appreciation in net book value. Management believes that there is currently a significant market opportunity to identify and fund such loans as a result of financing needs not being met by traditional institutional lenders. Management believes there will be significant opportunities for the Company to expand its presence in the market; however, it continues to be prudent in its approach to selection of new investments and pricing. Management expects to be able to generate interest rates similar to those reflected in the current portfolio in 2013.

The achievement of the Company's objectives is dependent on management's ability to execute on its business strategy as described while also successfully mitigating business risks as discussed in this MD&A.

### SELECTED ANNUAL AND QUARTERLY INFORMATION

The following selected financial information should be read in conjunction with the Company's MD&A, audited consolidated financial statements and accompanying notes for the years ended December 31, 2013 and 2012 and the unaudited condensed consolidated interim financial statements and accompanying notes for the three months ended March 31, 2014.
